Robust Education and Economy

75,000 Degrees was designed to increase postsecondary attainment by bringing together Mobile County's K-12, higher education, business, and community partners to create a sense of urgency to double the number of postsecondary credentials and degrees by the year 2030.

#75KDegrees
www.maef.net

Mobile County has an educational attainment rate of **30.31%**. To fulfill the 30.6% future job growth projected over the next 10 years, we must create **5,000** degrees/credentials every year thru 2030.

The demand for physical skills has continued to decline over time, except for "near vision" which is necessary to read computer screens and other types of documentation.
